

Calling all Future Robotics Engineers!

What: Join us for two days of workshops taught by SIDES students, using the LEGO Mindstorms NTX 2.0 robotics kits

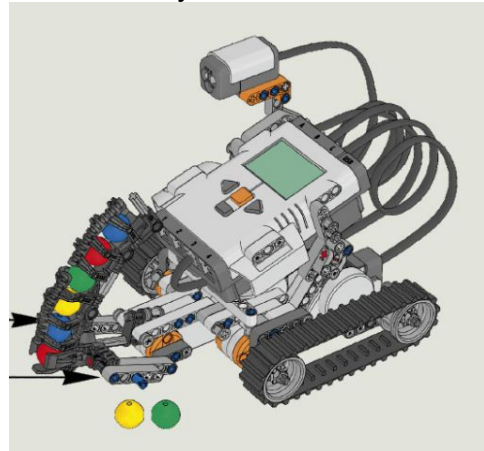

Day 1

Build and program a robotic base

Day 2

Build a ball-shooter and program your robot

Who: Workshop is open to all SIDES Students in Grades 6-12

When: Day 1: 10am-12pm on Thursday, February 23rd
Day 2: 10am-12pm on Thursday, March 1st

Where: In the main Classroom at Beaver Lake Campus of SIDES

How: Please email or call Vesna Barone at vbarone@sides.ca or 250-479-7125 to sign up quickly – spots are limited to 12 students!
Priority is given to students who can make both sessions, but let us know if you can only make one session.
